## WORK EXPERIENCE

### **Moytel Consultants Limited, Lekki Lagos. —** *Telecommunication and Information Technology Intern*

APRIL 2021 - SEPTEMBER 2021

I worked in the IT department which deals with network operations. It is responsible for monitoring and optimization of the customer's network.

### **Co-Creation Hub, Yaba Lagos. —** *Web development Intern*

OCTOBER 2018 - DECEMBER 2018

I learned how to create responsive web pages using HTML, CSS, and JAVASCRIPT. I also maintained websites using my newly learned skills.

## EDUCATION

### **Federal University of Technology, Owerri -** *Electrical & Electronics Engineering — (B. Eng)*

2016 - 2022

A Graduate of Electrical and Electronics Engineering.

## PROJECTS

**A Dice Game built with JavaScript** – The game consists of 2 players rolling a dice in rounds governed by some set of rules. The first player to reach 100 points wins the game.

**A Todo List App built with JavaScript** – An app that lets you create a list of tasks to be completed. The user can edit, delete and tick off tasks after completion of each task.
